

## **GOING GREEN SURVEY**

(staff members)

In an effort to maintain a safer, healthier, satisfying and more environmentally responsible facility, the environmental services (EVS) department (building contractor) is currently developing a green cleaning program. The information gathered with your help, will allow us to identify any potential areas for improvement as we pursue a more sustainable environment.

**Please answer yes or no to the following questions:**

I agree we should promote green cleaning in the EVS department.

I currently recycle materials at my home.

I have some knowledge of green cleaning procedures and their benefits.

I have used green cleaning products.

I believe green cleaning products are as effective as conventional cleaning products.

I would be willing to participate on a team to green our operations.

**General comments about this project:**
