Laundry & Warewash

Dispenser and Parts Catalog

Precision Chemistry | Automated Dispensing
Unmatched ROI

Clean. Safe. Simple.

Symplicity transforms laundry and warewash operations with advanced formulations, connected dispensing, and end-to-end support that boosts productivity, compliance, and profit margins. From spotless linens to sparkling dishes, Betco delivers consistent, measurable results across the back of house with systems.

Clean.

- Superior soil, stain, and residue removal in a single cycle for rewash rates under 5% for laundry and 1% for warewash.
- Custom programs matched to your unique water conditions, soil load, and equipment type.
- Efficiency-driven concentrates reduce chemical use by up to 30%.
- Advanced laundry and warewash formulations lower utility costs by up to 15% without sacrificing results.
- Cost-in-use analyses show measurable savings in labor, utilities, and replacement costs.

Safe.

- pH-, metal- and fabric-safe chemistry protects linens and dishware for fewer replacements.
- Compatible formulas and preventative maintenance extend equipment lifespan to reduce repairs.
- SureConnect closed-loop dispensing eliminates staff chemical exposure and ensures accurate dosing.
- Stay audit-ready with compliance tools and products.
- Multi-lingual e-learning, on-site instruction, and clear tools ensure proper use and safety.

Simple.

- Color-coded, connected dispensers allow staff confidence and management monitoring.
- Betco leverages its network to install without disruption.
- Broad product range ensures supply continuity and simplified procurement.
- Aligned with certified service partners for preventative maintenance and emergency needs for zero downtime.
- Direct access to Betco experts for troubleshooting, facility audits, and on-site optimization visits.

How to Use Duet-S Solid Laundry Detergent with Color Safe Bleach

Cómo usar el detergente sólido para ropa Duet-S con un blanqueador seguro para las prendas de color

- 1

**Remove cap,
dipfe la tapa**

- 2

Grip molded handle and place capsule into the reservoir on the dispenser as shown.

Tome el mango moldeado y coloque la capsula en el deposito del dispensador, como se muestra.

- 3

Load clothing into washer, close lid, select cycle type, and press the start button.

Cargue la ropa en la lavadora, cierre la puerta, seleccione el tipo de ciclo y presione el botón Start/Inicio.

- 4

Press the black button cause to dispense Duet-S into the washer.

Presione el botón negro para que se disperse Duet-S en la lavadora.
