Whether it is BestScent™ Air Freshener, BestScent Smoke & Odor Neutralizer or SenTec® Odor Eliminator, our complete program enables you to take control of the odors in your facility with fresh scents from Betco®.

Our Science

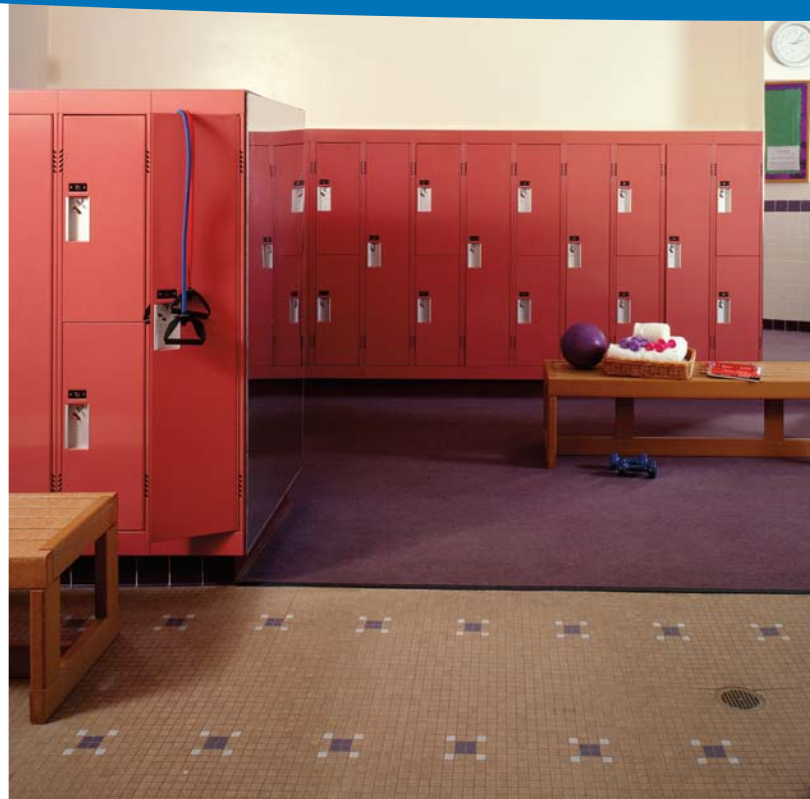

We have spent an extraordinary amount of time researching, listening and observing the need and preferences to eliminate odor in your facility. Finally, an odor management program that not only eliminates the source of odor, but effectively brings long-lasting pleasant scents to your facility.

The most important goal was to develop a unique counteractant technology...completely transforming the odor causing molecule. In turn, eliminating the odor from returning. The second was to deliver a multi-faceted product in which regardless of the odor source, it would be effective. Third, develop a unique sensory experience to trigger positive response to facility occupants and employees.
