# BIOACTIVE SOLUTIONS™

What is BioActive Solutions™?

## Microbes that continue to work for you!

BioActive Solutions are efficient cleaning chemicals formulated with a blend of microbial species that naturally create enzymes to digest FOGs (fats, oils, & greases) providing a long lasting result!

### HOW DOES BIOACTIVE SOLUTIONS WORK?

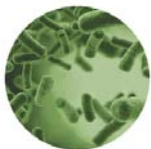

#### EFFECTIVE

- Breaks down organic waste and helps prevent build-up
- Products formulated for specific soils and applications

#### SAFER

- Less hazardous than typical cleaning products because non-pathogenic microbes offer a safer formula vs harsher products with caustics or acids
- pH Neutral formulas are safer for cleaning applications

#### CONTINUOUS CLEANING

- Microbes continue to work long after the application
- The benefits of continually breaking down organic matter will reduce label costs

# BioActive Markets

## EDUCATION

- Reduces malodors in restrooms
- Great use for FOGs present in cafeterias

## FOOD SERVICE

- Grease cutting surfactants and solvents for immediate cleaning, while proprietary blend of microbial species break down kitchen grease, fats and oils providing continuous extended cleaning
- Saves money by extending grease trap and septic cleanouts
- Reduce the amount of slip and fall accidents

## HEALTHCARE

- Helps reduce malodors in restrooms and kitchen cafeterias
- Microbes in every ounce produce enzymes that degrade organic wastes naturally

## INDUSTRIAL

- Good for greasy tools and floors due to spills or leaks
- Reduce the amount of slip and fall accidents

## RETAIL

- Reduces malodors in restrooms
- Great use for FOGs present in cafeterias or breakrooms
