

# HEALTHY TOGETHER

## Defense Against the Spread of Infection

The safety, health and well-being of our customers, employees, and vendors are important and we have taken rigorous measures to ensure cleanliness and disinfection you can trust.

This facility has been disinfected using **EPA registered products** in compliance with **CDC standards** to kill germs and reduce risk of spreading infection; including common pathogens like Hepatitis and Norovirus and meets EPA criteria for use against **SARs - COV-2, the virus that causes COVID-19.**

## Enhanced Facility Disinfection Program

Placards

### Avoid close contact!

Wash your hands often and use hand sanitizers when soap and water are not available. Also, frequently sanitize work area surfaces to reduce risk of spreading infection.
