

# FASTMIX™

## Dilution Control System

### Cost-In-Use

- Concentrated formulas
- Up to 15% lower cost\*

### Safety

- Closed liquid system
- Reduces potential splash and spills

### Productivity

- Ready to use
- 20% faster fill time\*\*

### Sustainability

- Features reusable and/or recyclable containers

### Operational Efficiency

- Uses approximately 30% less floor space\*\*\*

\*Cost savings based on average cost (gallons)

\*\*Compared to High Flow Proportioner

\*\*\*Compared to 5 drums

## Helping to Optimize the Workplace

Betco® FastMix™ is a safe, easy-to-use, closed liquid dilution control system that increases your purchasing power and saves filling time. Use with Betco's industrial degreasers for your cleaning needs throughout your facility.

# FASTMIX™

**FastMix™ is designed to drive sustainability, enhance safety, and reduce disposal costs compared to drums and other packaging. With two nozzles at low and high flow rates, FastMix fills spray bottles, mop buckets and large auto scrubbers quickly and at lowest end use cost.**

SKU	PRODUCT DESCRIPTION
91168-00	Rapid Refill Dispenser
91706-00	Solution Delivery Kit
91709-00	FastMix™ Dilution Control System*

\*FastMix™ Dilution Control System consists of one Solution Delivery Kit, one proportioner, and one empty 275 gallon Tote

USE WITH THESE BETCO INDUSTRIAL CLEANERS		
SKU	Product Description	Size
260127-00	BioActive Solutions™ Grease Solv	275 gal Disposable Tote
19327-00	Factory Formula™ HP Industrial Degreaser	275 gal Disposable Tote
14527-00	Liquid Chisel® Max Non-Butyl Degreaser	275 gal Disposable Tote
10327-00	Super Kemite® Butyl Degreaser	275 gal Disposable Tote

## CONTINUOUS CLEANING AND DOWNSTREAM BENEFITS WITH GREASE SOLV

### EFFECTIVE

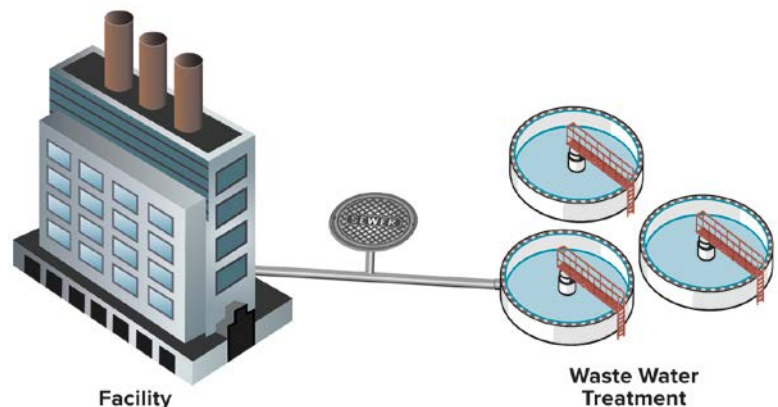

- Breaks down organic waste and helps prevent build-up
- Formulated for specific soils and applications

### SAFER

- Less hazardous than typical cleaning products due to non-caustic or acids
- pH formulas are safer for cleaning applications

### CONTINUOUS CLEANING

- Microbes continue to work long after the application
- Downstream benefits of continually breaking down organic matter
