

# GE Fight Bac™ Wipes

## Change the Way You Clean and Disinfect

GE Fight Bac™ Wipes kills SARS-CoV-2, the cause of COVID-19 in 30 seconds. Disinfect and clean hard, non-porous surfaces in one step. Multi-purpose cleaning formula suitable for bathrooms, kitchens, classrooms and office buildings.

# GE Fight Bac™ Wipes

## Broad Spectrum Hospital Disinfectant

### Disinfectant with the environment in mind.

GE Fight Bac™ Wipes kill over 99.9% of bacteria and viruses. Formulated with a “quat” alternative, botanical active ingredient, citric acid, and free from harsh chemicals, this product provides superior disinfection without the need for safety signal words like “Danger” or “Warning.”

### THE BENEFITS OF A CITRIC ACID ACTIVE INGREDIENT:

**PERFORMANCE:** Cleans without streaks or residue while achieving hospital-grade efficacy with low contact times.

**ENVIRONMENTALLY FRIENDLY:** Effective, plant-powered formula is certified by Green Earth standards.

**SAFETY:** Citric Acid-based solution is non-irritating and no harsh fumes for the user. Requires no PPE and has a zero health rating on the SDS. Also gentle on equipment making it an excellent choice as a cleaner.

**VERSATILITY:** GE Fight Bac Wipes will leave little to no residue compared to traditional quat disinfectants on Plexiglass®.

**FRAGRANCE:** Cool Fresh fragrance is pleasant to use and not overpowering. Ideal for use throughout the day.

### WHERE TO USE:

- Classrooms, including desks and computer surfaces
- Acrylic (Plexiglass®) dividers
- Restroom disinfection
- Hospitals and nursing homes
- High-touch surfaces, including smart phones
- Most other hard non-porous surfaces

### AVAILABLE IN:

392F1: 4 x 500 Wipes Bucket, 5.5” x 7” sheet size  
 392F5 - 1 x 1500 Wipes Big Bucket, 11” x 7” sheet size

Industry-best product performance - Green Earth® products must meet or exceed traditional products. This performance is verified by third-party lab testing or testing designed and performed in Betco® laboratories.

### DISINFECTION

| BACTERICIDAL: 5 MINUTES                    |  |
|--|--|
| Staphylococcus aureus - MRSA               |  |
| Staphylococcus epidermis - MRSE            |  |
| Enterococcus faecalis Vancomycin Resistant |  |
| Escherichia coli O157:H7                   |  |
| BACTERICIDAL: 2 MINUTES                    |  |
| Pseudomonas aeruginosa                     |  |
| Salmonella enterica                        |  |
| Staphylococcus aureus                      |  |
| VIRUCIDAL ACTIVITY: 5 MINUTES              |  |
| Rotavirus                                  |  |
| Human Immunodeficiency Virus Type 1        |  |
| Influenza A Virus                          |  |
| Feline Calicivirus-Surrogate for Norovirus |  |
| VIRUCIDAL ACTIVITY: 3 MINUTES              |  |
| Hepatitis B Virus                          |  |
| Hepatitis C Virus                          |  |
| Rhinovirus Type 14 (cold virus)            |  |
| VIRUCIDAL ACTIVITY: 30 SECONDS             |  |
