20 Gallon “Tip and Pour” Wet / Dry Vacuum

The Betco Workman™ 20 gallon wet/dry tank vacuum has several unique features for enhancing productivity. Its innovative “easy empty” tip and pour design allows the operator to quickly empty the machine with virtually no lifting. A powerful 1.75 hp vacuum motor offers maximum water recovery. The tank is constructed of highly durable, rotationally molded, polyethylene and features a built in handle and transport wheels. A standard multitask tool kit is included and an optional front mount squeegee is available.
